

**SNIFE CLASS INTERNATIONAL RACING ASSOCIATION**  
*International Technical Committee*

**CLASS RULE C.5.1.a.3 ELECTRONIC DEVICES**

During the Bacardi Invitational Regatta, a Vakaros electronic system was tested to evaluate its use for a possible modification of the current Class Rules C.5.1a.3 (see <https://www.snipe.org/articles-advice-and-education/technical-experts/rules/25-01-class-rules-c-5-1-electronic-compass/>.)

Its use was requested by the US National Secretary and approved by the Technical Committee as a TEST only.

The use of electronic devices other than those specified in the Class Rules is not permitted unless:

- Formally requested by the OA or NS as a TEST only;
- The use of the device is specified in the NoR;
- what functions will be activated;
- the device is available for rent by all competitors who do not own one.

Approval will be granted by the TC on a case-by-case basis. Precedence will be given to International Championships with a large number of competitors.
